

Conflict Minerals Statement

Statement Issue Date: 28th May, 2022

Products covered: Low, Medium & High Voltage Cables / Telephone Cables & Enameled Wires.

Giza Cable Industries values its brand reputation & responsibility to abide by industry regulations. As a producer of cables used in global markets, **Giza Cable Industries** is committed to sourcing responsibly & considers mining activities that fuel conflict as unacceptable.

- ◆ We fully understand the requirements related to Conflict Minerals & the associated legislation.
- ◆ We do not use Conflict Minerals (3TG) in our products , since none of the below minerals could be a constituent part of the cables:

(Tantalum (Ta) ; Tin (Sn); Gold (Au); Tungsten (W))

- ◆ At this time, we have already established Integrity Guide for our suppliers and we are working closely with them to provide us with the requested compliance information to determine the presence of 3TG in our supply chain.

If a supplier is found to not be in compliance with the a.m. objectives, the supplier is expected to develop, implement and document plans to remedy such non-compliance in a timely manner. If the non-compliance cannot be resolved, we terminate the relationship with the supplier.

The “Conflict Region” is defined as the Democratic Republic of Congo and adjoining countries.

Based on the material declarations form our suppliers we, Giza Cables Industries, do not knowingly supply products containing “Conflict Minerals” from the stated conflict region”.

Signed,

Eng. Amr El Khatieb
Quality Assurance Manager
